Re: Tavana & Co. Chartered Accountants

Art for Everyday Inc. is engaged in the manufacture and export of architectural woodcarvings used mostly as ornamental complements to luxury kitchen cabinets. Our company has enjoyed spectacular growth since its incorporation. We believe that good advisors bring about success and accountants among the advisors rank number one. Joseph Tavana and his firm Tavana & Co. have been there every inch of the way to advise and help us when needed. They are a competent and professional firm of accountants whose expertise and service we value greatly.
